

# Southall Young Adult Centre

Park View Road, Southall, Middlesex

## Construction of a Young Adult Centre

This new build, single storey, partially exposed steel framed structure aims to meet the educational and recreational requirements of young adults and the Community in Southall.

The double height main hall leads to the gymnasium, canteen and changing facilities which all boast highly decorative internal spaces and lighting systems. The design and the facilities incorporated within the centre enable staff to aid with the development of young adults, while providing the general community with modern leisure and recreational facilities.

The curved structure is a key focal point and emphasises the need to encompass aesthetically pleasing designs within the educational and leisure sectors, in order to maintain enthusiasm and psychological stimulation within the users and staff alike.

## Community
